

Gal Guštin

Full-Stack Developer

Maribor / Celje, Slovenia gal.gustin@gmail.com github.com/Galicius

Master's student in Computer Science and Information Technologies at FERl with hands-on experience shipping client websites and practical web/mobile products. Strongest work sits at the intersection of frontend craft, product thinking, and full-stack execution — from Next.js marketing sites to Python cloud services.

EXPERIENCE

Samsung Ambassador / Mobile Sales Specialist

Jun 2022 – Mar 2026

Samsung — Maribor, Slovenia

Advising customers on device purchases, subscriptions, and accessories while handling setup, data migration, and hands-on support.

Freelance Web Developer

2025 – 2026

Piranha Cocktail Bar / Alja Fakin — Slovenia

Designed and built freelance websites for Piranha Cocktail Bar and lawyer Alja Fakin, focusing on strong presentation, clear structure, and polished frontend execution.

Mobile Services & Devices Sales

Sep 2021 – Dec 2021

SGERM d.o.o. — Maribor, Slovenia

Sold telecom plans, mobile devices, and accessories while helping customers choose the right setup for everyday use.

PROJECTS

Piranha — piranha.si

2026

Cocktail bar website with strong visual direction and careful image optimization keeping the experience rich without slowing it down. **Stack:** Next.js, Image Optimization

Vozniski — vozniski.si

2026

Service scanning all available driving-lesson slots every 30 minutes so learners can request slots at the right time; backend runs on Google Cloud Run with a Python service. **Stack:** Next.js, Python, Google Cloud Run

Alja Fakin — aljafakin.si

2026

Polished marketing site presenting the brand clearly and building trust quickly. **Stack:** WordPress, Elementor

FERIbot

2023

AI assistant for FERl students (ChatGPT API): study info, timetables, professor contacts. Covered architecture, full-stack implementation, SonarQube QA, Scrum delivery. **Stack:** Python, Flask, OpenAI API
